

**Year 8 Creative Writing:**

A precious object has been buried beneath the floor boards in your house. Your task is to retrieve it.

Write a short story or description of you retrieving this object.

Think about the following. Then write a plan.

-----

1. A message arrives telling you it is time to retrieve the object.
2. It's a very precious object – be careful.
3. What time of day is it when you start to retrieve the object?
4. Are you doing the job alone or with someone else?
5. Describe the importance of this object – is it a family treasure or does the whole of mankind's well being depend on this object?
6. There are obstacles – beware. You can't just lift the floorboard and pick it up.
7. You must retrieve the item in one piece.
8. Equally, it could be something precious to you, an old book or toy, that you must have back.
